

## Press Release

### AET releases SafeSign Identity Client 3.0

*Strong authentication has never been easier*

Arnhem, 21 October 2008 - A.E.T. Europe B.V. (AET), market leader in cryptographic middleware, has released version 3.0 of their multiplatform PKI middleware for smart cards and USB tokens SafeSign Identity Client (IC). SafeSign IC enables smart card logon for several OS and strong authentication for all certificate enabled applications, as well as digital signing and encryption.

The new SafeSign IC version 3.0 has a modular architecture, for faster integration of new cards and functionality. It supports over 80 different smart cards and tokens, like

- NXP JCOP21/31/41 v2.3
- Sagem Orga J-IDMark 64
- ST Incard Touch & Sign2048
- Athena IDProtect (Duo)
- Siemens CardOS 4.3B
- RSA Smart Card 5200 and SecurID SID 800

SafeSign IC offers a large set of management features with its Token Management for users and a full featured Token Administration for Administrators. With these tools you can change PIN and PUK, see the content of a token and import or delete certificates. Access to these features can be configured separately.

SafeSign IC supports both PKCS#11 and Microsoft CryptoAPI, and is available in over 20 languages, including English, Spanish, French, Russian and Japanese. SafeSign IC is proven to be reliable by over 10 million users worldwide, from consumer to enterprise markets, in all industries where information security matters.

Windows, Mac OS X and some Linux distributions are now available. Other versions for Linux will be available later this year, as will the SafeSign IC version for 64bits and Windows Mobile. SUN Solaris versions are available on request.

### About AET

The Dutch company A.E.T. Europe B.V. (AET), headquartered in Arnhem and founded in 1998, is committed to IT security. AET offers its customers ingenious solutions based on worldwide accepted standards for e-commerce and information security.

AET is setting new standards in the crucial business area of developing middleware for smart cards and USB tokens with its **SafeSign Identity Client**. Another of AET's bestsellers is **BlueX Digital ID Management**. This well-known and extremely adaptable system supports the simplification and automation of individual steps for the digital ID management process.
